Cadomene Tablets Will Help You Over the Rough Period.

Cadomene Tablets are helpful to weak nerves. Weak, faulty norves often come from strong driuk. Sometimes the system is impoverished by excesses of one kind or another, such as poor digestion and faulty nutrition. Overwork, anxiety and even grief causes abnormal nervous conditions. The strength of body declines. The strength of will power wanes. Nervousness and sleeplessness cause further weakness and loss of vitality. Years of faithful practice taught a great physician that the formula now used to make Cadomene Tablets would surely build up the health of his patients. Now, anyone can take this great medicine if needed. Mr. G. A. Hoover, R. R. No. I. Readming, Pa. writes. "I am taking Cadomene Tablets with very gratifying results. Nervousness, overwork, and sleeplessness are my complaints."

Mr. Joe N. Herndon, 1645 Twenty-fifth St., Sacramento, Cal., writes. "I am using Cadomene Tablets and find a great improvement has been brought." um using Cadomene Tablets and find great improvement has been brought Every package is guaranteed satisfactory to the purchaser. adv.

Seven thousand persons each year are laid away—the burial certificate being marked Ringture. "Chy?" Because the infortunate cones had 'neglected friennelves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourselve by wearing a truss appliance, or what er name you choose to call it? At Rist, the truss is only a unkeediff—a false prop against a collapsing wall—and can not be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But acience has found a way, and every truss sufferee in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most swientiffe, logical and successful self-treatment for rupture the world has ever known.
